Old School Evoke, o regresso às origens.

Old School Evoke, é a expressão artística na arte mediterrânica de fazer o Azulejo!
É a recuperação da cor da arte merínida que conjugada com cores modernas, permite composições que se multiplicam no infinito.

Old School Evoke, the return to the origins.

Old School Evoke, is the artistic expression in the Mediterranean art of making Ceramic tiles!
It is the recovery of the color of historic art that, combined with modern colors, allows compositions that multiply in the infinite.

Old School Evoke, le retour aux origines.

Old School Evoke est une expression de l'art méditerranéen du carrelage!
C'est l'intégration des couleurs de l'art berbère aux couleurs modernes, permettant des compositions à l'infini.

Old School Evoke, el retorno a los orígenes.

Old School Evoke, es la expresión artística en el arte de hacer Azulejos del mediterráneo!
Es la recuperación del color del arte de los merínies que combinado con colores modernos, permite composiciones que se multiplican en el infinito.

USO E MANUTENÇÃO DO REVESTIMENTO CERÂMICO DA PRIMUS VITÓRIA

O processo de limpeza e manutenção do revestimento cerâmico da Primus Vitória é muito simples! Basta lavar as superfícies com esponja macia e detergente. Pode-se usar um detergente ou desengordurante com PH neutro, à escolha, de forma a facilitar o processo. Produtos desengordurantes, ajudam na remoção de resíduos e facilitam o trabalho do dia a dia, especialmente em ambientes onde a sujidade pode ser mais notória, como em cozinhas e casas de banho. O importante é esfregar com uma esponja macia e usar água de forma a eliminar todos os traços de resíduos.

Use um pano macio para terminar a limpeza dos azulejos. Não utilize materiais abrasivos ou corrosivos na limpeza dos mesmos.

Outras recomendações: Em caso de algumas manchas mais persistentes ou vestígios de cera, recomendamos o uso de um detergente desengordurante próprio para azulejo, com forte poder de remoção de manchas. (ex: FILA PS 87)

USE AND CARE OF PRIMUS VITORIA WALL TILES

Regarding Primus Vitoria Wall tiles, cleaning and maintenance process are simple! Wash surfaces with sponge, and soap —you can use a detergent or other degreasing with neutral PH, of your choice—to facilitate the process. Degreasing products help in the removal of waste and offer practicality in your daily life, especially for environments where dirt is heavier, such as in kitchens and bathrooms. The important thing is to rub with soft sponge and soap and finish removing all soap from the surface with water; Use a glass cleaner and soft cloth to clean accent glass tiles. Do not use abrasive or corrosive materials to clean wall tiles;

Other recommendations: In case of some hard stains of wax vestiges we recommend the use of a de-greasing, stain-removing detergent (ex: FILA PS 87)

UTILISATION ET ENTRETIEN DES CARREAUX DE MUR PRIMUS VITORIA

Les méthodes de nettoyage et de maintenance des carreaux de mur Primus Vitoria sont simples.

Laver les surfaces avec une éponge et du savon – vous pouvez utiliser un détergent ou tout autre produit de dégraissage au PH neutre, de votre choix – pour faciliter le processus.

Les produits de dégraissage aident dans l'élimination des saletés et sont pratiques dans votre vie quotidienne, spécialement dans les environnements où la saleté est plus importante, tels que les cuisines et les salles de bains. L'opération la plus importante est de frotter avec une éponge douce et du savon et de terminer en retirant tout le savon de la surface avec de l'eau; Utiliser un nettoyeur pour vitres et un chiffon doux pour nettoyer l'émail le plus délicat (celui des couleurs les plus foncées des carreaux). Ne pas utiliser des matériaux abrasifs ou corrosifs dans le nettoyage des carreaux de mur;

Autres recommandations: Dans le cas de taches de restes de cire bien accrochées, nous recommandons l'utilisation d'un détergent dégraissant et détachant (ex : FILA PS 87)

USO Y CUIDADO CON LOS AZULEJOS DE PRIMUS VITORIA

¡En cuanto a los azulejos de Primus Vitoria, el proceso de limpieza y mantenimiento es simple! Lavar las superficies con una esponja y jabón – puede usar un detergente o otro desengrasante con PH neutro, a su elección, para facilitar el proceso. Los productos desengrasantes ayudan a eliminar los residuos y ofrecen practicidad en la vida cotidiana, especialmente en los entornos donde hay más suciedad, como por ejemplo cocinas y baños. Lo importante es frotar con una esponja suave y jabón y terminar de quitar todo el jabón de la superficie con agua; Use un limpiador de vidrios y un paño suave para limpiar los azulejos de vidrio de acento. No use materiales abrasivos o corrosivos para limpiar los azulejos;

Otras recomendaciones: En caso de algunas manchas con vestígios de cera recomendamos el uso de un detergente desengrasante, detergente quimanchas (ex: FILA PS 87)
